## GROUNDBREAKING.

**ONE THING IS CERTAIN: THESE TWO ARE DIFFERENT.** THEY CREATE FASCINATING EXPERIENCES ON EACH DRIVE, RANGING FROM THE EXPLICITLY SPORTY TO THE EXCITINGLY STYLISH. WITH A COMPACT DESIGN EVOKING A SENSE OF UNLIMITED FREEDOM AND PALPABLE ATHLETICISM THAT COMMUNICATES ITSELF BEFORE THE CAR HAS EVEN MOVED AN INCH. WITH AN INTERIOR THAT BOASTS PREMIUM MATERIALS AS WELL AS SUPREME WORKMANSHIP, ALONG WITH INNOVATIVE TECHNOLOGY EFFORTLESSLY CONNECTING ITS OCCUPANTS WITH THE OUTSIDE WORLD. DISCOVER PASSION. DISCOVER CHARISMA. **DISCOVER THE BMW 2 SERIES COUPÉ AND CONVERTIBLE.**

**MORE POWER FROM LESS FUEL.**

Consume less, experience more – the **BMW TwinPower Turbo engines** offer the greatest possible dynamic performance with the greatest possible efficiency thanks to the newest injection systems, variable output control and sophisticated turbocharger technology. Whether diesel or petrol, and no matter how many cylinders, the engines from the BMW EfficientDynamics engine family allow more agile power delivery and outstanding responsiveness even at low rpms, while being fuel-efficient and low in emissions.

**MORE DRIVING PLEASURE, LESS EMISSIONS.**

**BMW EfficientDynamics** includes not only the engine and drivetrain, but rather the whole vehicle concept, including intelligent energy management. Provided as standard in every BMW, a variety of innovative technologies contribute to continuously improving efficiency. Via engine efficiency measures, electrification, lightweight construction methods and optimised aerodynamics, BMW is striving to reduce the CO<sub>2</sub> emissions of its fleet.

**MORE SPEED, LESS WEIGHT.**

Lower weight with intelligent lightweight construction. Special consideration for every last detail – intelligent lightweight construction means that the optimal material is found and implemented for each part of the vehicle. With extremely light high-tech materials such as aluminium and carbon fibre, **BMW EfficientLightweight** is pursuing the goal of minimising vehicle weight. That leads to even more dynamic performance, increased stability and heightened vehicle safety and comfort.

**DRIVE PERFORMANCE CONTROL.**

Drive Performance Control lets the driver choose between the standard Comfort mode, the more efficient ECO PRO mode and Sport and Sport+<sup>1</sup> modes for an even more dynamic drive. ECO PRO mode adjusts the characteristics of automatic transmission and heating/air conditioning settings to make the drive as fuel efficient as possible.

**AUTOMATIC TRANSMISSION.**

The optional eight-speed automatic transmission with Steptronic, exclusively available for 218i and 218d models, ensures particularly smooth gearshifts and outstanding driving comfort, thanks to fast engine speed transitions and tightly spaced gear ratios. It unites superb comfort with impressive dynamics and increased fuel efficiency.

**AUTOMATIC START/STOP FUNCTION.**

The Automatic Start/Stop function switches off the engine when the vehicle comes to a temporary standstill (e.g. at traffic lights or in a traffic jam), which can reduce overall fuel consumption. When the driver presses down on the clutch (manual) or takes their foot off the brake (automatic), the engine automatically starts up again in a fraction of a second.

**IN THE BMW 2 SERIES COUPÉ AND CONVERTIBLE.**

## THE BMW 2 SERIES COUPÉ AND CONVERTIBLE - DIGITALLY CONNECTED FOR MORE INFOTAINMENT AND COMFORT.

Innovation and Technology 20 | 21

### REGISTERS UP TO **360** DEGREES OF THE VEHICLE'S SURROUNDINGS.

Enjoy the greatest convenience and the highest level of safety with BMW ConnectedDrive. For driving, parking and visibility, the BMW ConnectedDrive driver assistance systems are there when you need them, reliably, in every situation. The most cutting-edge systems, such as radar, ultrasound and cameras, dependably register the vehicle's surroundings, forming the basis for intelligent driver assistance systems. Whether activated when desired, or as emergency assistance in the background – the assistance systems from BMW ConnectedDrive make every drive in your BMW safer and more convenient.

### CONNECTED FOR OVER **20** YEARS.

Focused on the future – from the very beginning. By the 1990s, BMW had already made headway in connected mobility. Another milestone of the digital future was surpassed in 2004 with vehicles with built-in SIM cards. Then came the first online functionality, Google Services and innovative display systems such as the BMW Head-up Display. Throughout this process, the desires of the customer have always taken centre stage. In a first for a premium automobile manufacturer, BMW makes it possible to book and pay for services flexibly via the BMW ConnectedDrive Store, in the vehicle or on a computer at home. And with the introduction of BMW Connected and the Open Mobility Cloud, BMW is taking the next steps into the future of mobility.

### MORE THAN **20** SERVICES IN THE BMW CONNECTED DRIVE STORE.

ConnectedDrive Services forms the basis for intelligent BMW ConnectedDrive functions, as well as integration of selected smartphone apps. This equipment also provides access to the BMW ConnectedDrive Store, in which services and apps can be easily ordered and extended, any time and anywhere to suit the user's individual requirements.

### IN TOUCH **24/7** WITH BMW CONNECTED.

What would it be like if you were never late again? What if your BMW already knew your regular destinations? How would you like reliable navigation, whether you're sitting in your vehicle or not? BMW Connected provides you with the information you need, when and where you want it. BMW Connected is a personal mobility assistant which facilitates your everyday mobility and aids you in reaching your destinations relaxed and on time. With the BMW Connected App, mobility-relevant information such as recommendations for optimal departure times are available via a smartphone or smartwatch and can be seamlessly transmitted to the car.

### BMW ONLINE SERVICES.

BMW Online Services enables access to a WAP based BMW Online portal to view a wide range of general and location-based information services. These include the latest news and sports headlines, a five-day weather forecast and live POI searches via Google Local Search.

### BMW CONNECTED.

BMW Connected is a personal mobility assistant which facilitates everyday mobility and aids drivers in reaching their destinations relaxed and on time. Mobility-relevant information such as recommendations for optimal departure times are available remotely via iPhone or Apple Watch and can be seamlessly transferred into the car.<sup>1</sup>

### REMOTE SERVICES.

With the Remote Services function of the BMW Connected App, various functions of the vehicle, such as displaying the car's location and locking and unlocking the vehicle, can be operated remotely.<sup>2</sup>

### APPLE CAR PLAY® PREPARATION.

Apple CarPlay® preparation enables wireless and comfortable usage of your iPhone® in your vehicle via Apple CarPlay®. It is operated seamlessly via the vehicle's user interface.<sup>1,2,3</sup>

<sup>1</sup> Available as optional equipment.

<sup>2</sup> Available and active without runtime limitations. Usage cannot be guaranteed permanently due to potential future technical developments (of the Service availability and/or Smartphone compatibility/operating systems).

<sup>3</sup> Only in conjunction with Enhanced Bluetooth with wireless charging. Compatibility and supported functions depend on the iPhone® model and software installed. When the Apple CarPlay® preparation is used, selected vehicle data is transferred to the phone. The mobile phone manufacturer is responsible for further data processing.

■ Standard equipment □ Optional equipment

The **rear-wheel drive** forms the basis for classic BMW steering precision, agility and sporty driving characteristics. Seeing as propulsion comes from the rear instead of the front wheels, it enables highly sensitive steering and the ideal weight distribution of 50:50. This ensures great traction and directional stability on bends.

The intelligent **BMW xDrive all-wheel drive system** smoothly and variably distributes drive power to the front and rear wheels for maximum traction, driving dynamics and safety in every driving situation. For even better agility, the electronically controlled power distribution counterbalances over and under-steering on bends, among other things.

An ideal **axle load distribution of 50:50** helps ensure great directional stability, agile handling and a precise steering response. While at the same time, a lower centre of gravity and shorter overhangs further improve driving characteristics.

**Dynamic Stability Control+ (DSC+)** stabilises the vehicle as soon as any skidding motion is detected. Its extended functionality includes Cornering Brake Control (CBC), Hill-start and Brake Assist, brake drying and braking readiness. For even more athletic driving, the Dynamic Traction Control (DTC) function allows increased wheel slip.

■ The **roll-over protection system** in the rear headrests combined with the roll-over bar integrated into the windscreen frame forms the 'passenger compartment'. In case of an accident the protective bars integrated into the headrests extend in fractions of a second to significantly improve head protection should the car turn over – guaranteeing a higher degree of safety.

■ The functional structure of the **passenger cell** is composed of a specialised system of beams and nodal connections, featuring strategically deployed high-strength materials which deliver maximum passive safety in the event of front, side and rear collisions.

■ **Airbags** for driver and front passenger are part of the optimally coordinated safety components in a BMW. Overall, six airbags provide targeted protection: including driver and front passenger airbags, airbags for the entire window surface on the side<sup>1</sup>, and side airbags integrated into the front seat backrests.

■ **Tyre pressure monitoring** with a three-level warning strategy reads the tyre pressure at all times and automatically warns the driver of any loss of pressure. The system detects the air pressure of each tyre via a sensor and transmits the values wirelessly to a control unit. So Tyre pressure monitoring is capable of displaying both slow and rapid loss of air pressure.

■ **BMW Emergency Call<sup>2</sup>** reacts automatically if an accident occurs and gets help for you and your passengers. It contacts specially trained BMW Call centre agents who offer support to you and your passengers until the emergency services arrive. The first responders also receive important information directly.

□ **BMW Icon Adaptive LED Headlights** with low and high-beam headlights include LED indicators, High-beam Assistant and Adaptive headlights. The equipment also features automatic height adjustment and four 'white' LED Corona rings used for Daytime Driving Lights.

<sup>1</sup> Only available for the BMW 2 Series Convertible.

<sup>2</sup> Available and active without runtime limitations. Usage cannot be guaranteed permanently due to potential future technical developments (of the Service availability and/or Smartphone compatibility/operating systems).

Impressive driving dynamics and a genuine motorsport feel are hallmarks of a BMW M vehicle like the M240i. With its unmistakably athletic sound, the car's BMW M TwinPower Turbo six-cylinder in-line petrol engine is engineered to delight. With a breathtaking output of 340hp (250kW), it is just the thing for anybody who ever dared to dream of more performance. Its optimised cooling system is well up to the task of dealing with its heightened performance. Low-set M Sport suspension with individual M240i set up, Variable Sport steering and M Sport brakes combine to masterfully transmit power to the road. While the M aerodynamic bodystyling offers an excellent visual interpretation of the vehicle's athletic pedigree. This includes a front apron with larger air inlets, special side skirts and a rear apron with a diffuser insert. The twin round tailpipes are finished in Dark Chrome. The M240i features 18" light alloy wheels in an exclusive M Double-spoke design. In the interior, driver and front-seat passenger enjoy Sport seats that offer outstanding lateral support. The easy-grip M multi-function steering wheel is finished in Nappa leather. Interior trim finishers offer a tantalising visual foretaste of the vehicle's athletic potential.

■ Standard equipment □ Optional equipment

□ BMW Icon Adaptive LED Headlights with low and high-beam headlights include LED indicators, High-beam Assistant and Adaptive headlights. The equipment also features automatic height adjustment and four 'white' LED Corona rings used for Daytime Driving Lights.

□ The wind deflector provides the driver and front passenger with effective protection from draughts at neck and shoulder-height, even when travelling at high speeds. When it is not needed, the collapsible sides can simply be folded together for easy and compact storage.<sup>2</sup>

■ From the daytime running lights to low and high beams, all of the functions in the LED Headlights have a longer lifespan and save more energy thanks to LED technology. The dynamic headlights feature automatic light range regulation, increased visibility at night and in bad weather thanks to excellent illumination with a light colour similar to daylight.

■ The light generated by the LED foglights is very similar to daylight and enables the driver to see better and drive more safely in inclement weather.

□ Comfort Access allows keyless entry to the vehicle via both the driver and passenger doors as well as the bootlid. The key, which can be carried in a trouser pocket or handbag, for example, is automatically recognised as soon as it is in close proximity to the car. It includes handle-area lighting in the outside door handles, front and rear. Comfort Go, keyless starting of the engine, is included as standard. Only available as part of Comfort pack II. Please ask your BMW Retailer for a full description of the functionality for your chosen vehicle.

■ The mirror caps are painted in High-gloss Black which emphasises the car's athletic look and creates an individual appearance. Standard for M240i.

□ The tow bar with removable head allows a trailer to be pulled. It also features trailer stability control.

■ The High-gloss Black Shadowline exterior trim includes trim strips on the front and rear side windows as well as front and rear window recess finishers. The exterior mirror caps (model dependent), bases and triangles all feature the same look to match. This lends the car a sense of athleticism and elegance. Standard on M Sport models. Not available on SE and Sport models.

□ The electric glass sunroof with slide and lift function including sun protection, anti-trap protection, comfort opening and closing via remote control and one-touch function allows you to regulate the air flow rate according to your preference to create a pleasant interior climate. The integrated, automatically extending wind deflector guarantees a high level of acoustic comfort.<sup>1</sup>

■ The Convertible softtop considerably reduces the noise level in the interior and also provides outstanding insulation against the cold. No matter whether seen from the inside or outside, its high-quality look is a real head turner. The softtop can even be opened or closed fully automatically at speeds of up to 30mph.

<sup>1</sup> Only available for Coupé model.

<sup>2</sup> Interior trim shown in the image is not available for UK market.

■ Standard equipment □ Optional equipment

□ Active Cruise Control with Stop&Go function<sup>1</sup> maintains a preselected speed, as well as the distance to the vehicle ahead.

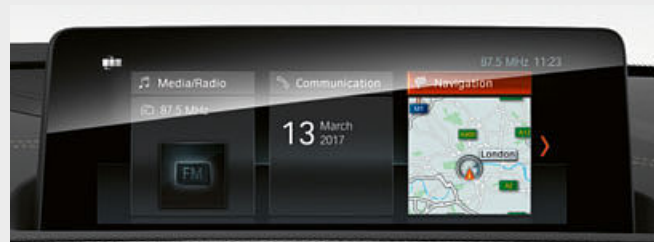

■ The Sport seats for driver and front passenger provide optimum lateral support with their raised side bolsters and manually adjustable thigh support. The fore-and-aft position and seat angle can be manually adjusted, while the backrest width can be adjusted electrically. (Standard on Sport, M Sport and M240i models).

□ A Smartphone holder within the centre console features inductive charging for compatible mobile telephones (using Qi wireless charging<sup>3</sup> format) and connection to the vehicle's external aerial. Includes LED charge level indicator and forgotten mobile phone warning. A roof aerial connection improves mobile reception. Two mobile telephones and an audio player can be connected simultaneously via Bluetooth. Also included are: Bluetooth Office and the technical capacity for a WiFi hotspot. Only available as part of the Tech pack II.

□ Extended lighting creates an atmospheric ambience in the interior. It includes a variety of additional LED lights: front and rear reading lights, vanity mirror lights for driver and front passenger, front footwell lights, ambience light in the front and rear, door handle lighting, as well as exit lights in the front doors and exterior door handle light using LED technology. Only available as part of the Comfort pack I.

□ The BMW Professional Multimedia Navigation system, including USB interface, 8.8" LCD colour display and BMW Professional radio with a DVD player, comes with a three-dimensional map display and 20GB of memory. The system is operated intuitively via the iDrive Touch Controller or touch screen. Map updates are available for three years without license fees. Only available as part of Comfort pack II.

□ Full Black panel display with integrated graphic visualisation of navigation instructions and other features. Only available as part of the Tech pack II.

■ The multi-function buttons for the steering wheel can be used to operate the telephone, voice control and audio functions as well as the speed limiting function.

□ The eight speed Sport automatic transmission offers incredibly sporty gear changes. Whether automatic or manual using gearshift paddles or gear lever.

□ Loudspeaker system - harman/kardon with external 360 watt amplifier in the luggage compartment consists of 12 speakers including two central subwoofers.

□ The air conditioning, automatic with two-zone or automatic temperature control features separate controls for the driver and front passenger. It includes rear air vents, Automatic Air Recirculation (AAR), an active carbon filter, fogging and solar sensors, as well as automatic day/night adjustment in the display from white to orange. Only available as part of the Comfort pack I.

□ Park Assist<sup>2</sup> makes parking simple. The system works by measuring potential parking spaces while driving past at a low speed. When a suitable space has been found, the Park Assist takes over the steering, while the driver is responsible for selecting the correct gear, as well as pressing the accelerator and brakes. Only available as part of the Tech pack I.

□ The Reversing Assist camera enables improved orientation when reversing at speeds below 10mph, for example, when parking. It shows the area behind the car on the Control Display. Interactive track lines for measuring distance and turning circles assist the driver when manoeuvring, obstacles are marked in colour. Only available as part of Tech pack I.

□ Apple CarPlay<sup>®</sup> preparation enables wireless and comfortable usage of your iPhone<sup>®</sup> in your vehicle via Apple CarPlay<sup>®</sup>. It is operated seamlessly via the vehicle's user interface.<sup>4,5</sup>

□ WiFi hotspot<sup>6</sup> preparation enables connection of mobile devices to the internet via the SIM card installed in the vehicle. Depending on the local LTE availability, up to ten devices can surf the internet. Only available as part of the Tech pack II.

<sup>1</sup> Only available in conjunction with Automatic transmission and Full Black panel display.  
<sup>2</sup> The driver is responsible for constantly monitoring the parking procedure in accordance with local road laws.  
<sup>3</sup> For Smartphones without an inductive charging function, special charging cases are available to purchase via BMW Parts and Accessories. Extended functionality may

depend on the features of the Bluetooth / USB device in use. For confirmation, please check the Bluetooth Compatibility Checker on [www.bmw.co.uk](http://www.bmw.co.uk).  
<sup>4</sup> Available and active without runtime limitations. Usage cannot be guaranteed permanently due to potential future technical developments (of the Service availability and/or Smartphone compatibility/operating systems).

<sup>5</sup> Only in conjunction with Enhanced Bluetooth with wireless charging. Compatibility and supported functions depend on the iPhone<sup>®</sup> model and software installed. When the Apple CarPlay<sup>®</sup> preparation is used, selected vehicle data is transferred to the phone. The mobile phone manufacturer is responsible for further data processing.  
<sup>6</sup> The WiFi hotspot fulfils all in-vehicle requirements for use of the internet with the maximum LTE standard. Usage is subject to cost.

# GENUINE BMW ACCESSORIES.

■ Standard equipment   □ Optional equipment   ○ Accessories

○ The Rear Bike Carrier is lightweight yet sturdy and can carry up to 60kg. Exceptionally easy to use, it carries two bicycles or e-bikes. Its tilt function also allows easy access to the luggage compartment at all times.

The lockable Racing Bike Carrier enables the secure transport of racing bicycles with quick-release clamps. It is made of high-strength aluminium and features a simple clamping system for attaching bicycles. A separate front wheel holder is also available.

○ BMW M 19" light alloy Double-spoke style 405 M wheels.

○ BMW M Kidney grilles in Black ensure the car stands out from the crowd.

○ The Black All-weather Floor Mats ensure precisely fitting protection against dirt and moisture in the footwells.

○ The Travel & Comfort System Coat Hanger slots into the separately available base carrier (required) and can also be used outside the vehicle.

○ When the doors are opened, the LED Door Projectors project one of a choice of four graphics on the ground adjacent to the vehicle, for perfect illumination of the entry area.

○ Anti-slip, water-resistant, durable Luggage Mat for protecting the luggage compartment from dirt and moisture.

# PACKAGES.

BMW packages are designed to group together certain options around a particular aspect of your BMW driving experience to help make your choice of options easier.

■ Standard equipment □ Optional equipment

□ TECH PACK I.  
Offering the latest innovations, the Tech Pack I is the perfect companion on any journey.

Available as part of this package:

- Reversing Assist camera
- Park Distance Control (front and rear)
- Cruise Control
- Park Assist

□ COMFORT PACK II.  
Thanks to Comfort Pack II, you now have greater ease of access and driving comfort both inside and outside of the vehicle.

- Included within this package:
- Steering wheel heating
  - Comfort Access
  - Electric seat adjustment with driver memory for driver and front passenger

Additional information:

- M Sport and M240i models require one of the following:
- Cruise control with braking function (as part of the Tech Pack I)
  - Active Cruise Control with Stop&Go function

□ TECH PACK II.  
From the ability to charge your phone wirelessly, to the convenience of relevant driving information projected onto the windscreen, Tech Pack II enhances your driving experience.

Included in the package:

- Navigation system – BMW Professional Multimedia
- Enhanced Bluetooth and wireless charging
- Full Black panel display
- WiFi hotspot preparation

□ M SPORT PLUS PACK.  
Enhance your BMW 2 Series Coupé and Convertible M Sport with the M Sport Plus Pack. With this Pack, you receive a generous selection of visual and performance upgrades to deliver the ultimate BMW experience.

Comprises:

- High-gloss Black Kidney grille
- 18" M light alloy Double-spoke style 719 M wheels, Jet Black
- M Sport braking system
- Variable Sport steering
- M seat belts
- harman/kardon loudspeaker system
- Differing content:
  - Sun protection glass (exclusively for Coupé models)
  - M rear spoiler (exclusively for Coupé models)

□ COMFORT PACK I.  
The Comfort Pack I combines convenient and innovative functionality with pure comfort. It offers welcoming light solutions, like the Extended lighting option, which can be utilised for even greater convenience.

Comprises:

- Exterior folding mirrors
- Extending storage
- Seat heating, front
- Automatic air conditioning with two-zone
- Extended lighting

Not available on M240i models.

□ M240i PLUS PACK.  
Enhance your BMW 2 Series Coupé and Convertible M240i xDrive with the M240i Plus Pack. This package enhances the vehicle through a selection of visual and performance upgrades to deliver the ultimate BMW experience.

Includes:

- 18" M light alloy Double-spoke style 719 M wheels, Jet Black
- M seat belts
- High-beam Assistant
- BMW Icon Adaptive LED Headlights
- harman/kardon loudspeaker system
- Differing content:
  - Sun protection glass (exclusively for Coupé models)

**BMW M240i COUPÉ:**

BMW TwinPower Turbo six-cylinder in-line petrol engine, 340hp (250kW), 18" M light alloy Double-spoke style 719 M Jet Black wheels with run-flat tyres, Sunset Orange metallic paint, Dakota leather seats in Black with Exclusive stitching, Aluminium Hexagon interior trim with High-gloss Black finisher.

**BMW 220i SPORT CONVERTIBLE:**

BMW TwinPower Turbo four-cylinder petrol engine, 184hp (135kW), 17" light alloy Star-spoke style 379 wheels with run-flat tyres, Mineral Grey metallic paint, Oyster Dakota leather seats with Dark Oyster highlight.

The models illustrated in this brochure show the equipment and configuration options (standard and optional) for vehicles produced by BMW AG for the German market. Alterations in standard and optional equipment and the configurations, as described in this brochure, may differ at the time of printing, or according to the specific requirements of other markets. Your local BMW Retailer is available to provide further details. Subject to alteration in design and equipment.  
Part number 01 29 5 A11 DD3 V1. December 2019.
