*The on the road is based on the recommended retail price (including VAT and VRT) and on the road charges (including delivery costs). The OTR price excludes any selected third-party offers (please see below).

The values for CO2 emissions shown have been determined according to the WLTP test. WLTP has been used as the applicable fuel and energy consumption and CO2 emissions figure from 1 January 2021 for vehicle registration tax (VRT).

**These prices are for the basic model with the transmission offered in the basic version without additional options or accessories added. They are determined using the prescribed measuring methods (Directive 80 / 1268 / EEC in its current version). Adding additional options can affect the CO2 emissions, resulting in a change in the basic price of the car due to the change in VRT payable.
For full pricing details on your desired BMW with all additional options, please see our online configurator:
